DELIVERING PEACE OF MIND FOR YOUR PRECIOUS SHIPMENT

At Cryoport, we understand the *in vitro* fertilization process can be challenging, and the last thing you need to worry about is the shipping of your eggs, sperm or embryos. That's why it's our top priority to ensure your materials are handled with meticulous care from clinic to clinic, safely and securely.

Cryoport facilitates this journey in more than 90 countries and provides the ideal environment for a successful shipment, tracking the location and condition of your materials to their destination. As an added measure of integrity protection, Cryoport follows a one-patient-per-shipper policy, meaning your materials are transported in containers individually designated to you. For instances when timing is especially critical, Cryoport also offers a hand carry solution in which a team member will personally transport and deliver your valued reproductive materials.

Our experienced team understands just how precious your shipment is and will be with you every step of the way.
